

SPACE SUPPLIERS SUMMIT

International Summit & Meetings
for the Space Manufacturing Sector

4-5 OCTOBER 2022
GLASGOW, SCOTLAND

SPACE-MEETINGS.COM

Space Suppliers Summit Scotland

Draft Conference Programme

4th October 2022

09:00 – 09:05 Chair's Opening and Conference Commencement

The Evolving Space Value Chain: Traditional Space, New Space and Beyond

09:05 – 09:20 Scottish Minister Presentation
Ivan McKee, Minister for Business, Trade, Tourism and Enterprise

09:20 – 09:35 Scotland's Space Sector: Growth Through Innovation
Craig Clark, Chair, Space Scotland

09:35 – 09:50 Spire Global Presentation
Speaker TBC

09:50 – 10:30 Panel Discussion: Understanding Where the Space Market Opportunities are Today
- Diversifying into the space industry
- Democratisation of the space sector and prospects for new market entrants
- How to successfully navigate shifting business models and partnerships in the commercial space sector
Panel Moderator:
Malcolm Macdonald, Professor of Applied Space Technology, University of Strathclyde
Panelists:
Peter Anderson, Chief Commercial Officer, AAC Clyde Space
Callum Norrie, Integrator, Space Network Scotland

10:30 – 10:45 How Power Can Transform the Space Market
Tom Burgess, Vice President, UK MOD, Rolls-Royce Defence

10:45 – 11:00 **Morning Break**

11:00 – 11:35 Roundtable: Working Together to Win the European Launch Space Race
David Oxley, Director of Strategic Projects, Highlands and Islands Enterprise

11:35 – 12:15 Panel Discussion: How Can Traditional Space and New Space Cooperate to Drive Industry Developments?
- Leveraging knowledge-sharing and partnerships between New Space entrants and established market players
- Adopting a cooperative international approach to space access and regulation

SPACE SUPPLIERS SUMMIT

International Summit & Meetings
for the Space Manufacturing Sector

4-5 OCTOBER 2022
GLASGOW, SCOTLAND

SPACE-MEETINGS.COM

Panel Moderator:

Matjaz Vidmar, Lecturer in Engineering Management, University of Edinburgh

Panelists:

Donald MacLeod, Business Development Manager, UK Astronomy Technology Centre

Jessica Regan, Project Programme Portfolio Manager, BAE Systems Applied Intelligence

Grant Lewis, Project Manager, Lockheed Martin UK Space

12:15 – 12:30

Multi-Sector Industry Collaboration to Inspire New Products and Innovation

David Pile, Regional Director - UK, Europe and MENA, Northrop Grumman Space Systems

12:30 – 13:30

Lunch Break

Future-Proofing the Launch Supply Chain

13:30 – 14:10

Panel Discussion: How Can We Build Carbon Neutral Space Supply Chains?

- Role of advanced manufacturing in saving energy and reducing inefficiencies
- Developing reusable launch systems
- Bridging gaps between industry and academia to drive innovation

Panelists:

Derek Harris, Business Operations Manager, Skyrora

A representative, ESA

14:10 – 14:30

Airbus Defence and Space Presentation

Speaker TBC

14:30 – 15:15

Panel Discussion: Developing a Workforce Fit for the Industry Requirements of Today and Tomorrow

- How can industry attract and retain top talent in the space manufacturing sector?
- Industrial-academic collaboration to match requirements
- Challenges and opportunities of increasing diversity in the manufacturing sector

Panelists:

Paul Sheerin, CEO, Scottish Engineering

A representative, National Manufacturing Institute of Scotland

15:15 – 15:30

Assessing Accreditation to Qualify Existing Products for Space

15:30 – 15:50

Afternoon Break

SPACE SUPPLIERS SUMMIT

International Summit & Meetings
for the Space Manufacturing Sector

4-5 OCTOBER 2022
GLASGOW, SCOTLAND

SPACE-MEETINGS.COM

15:50 – 16:30

Panel Discussion: How Can We Fill the Gaps and Reinforce the Space Supply Chain?

- Best practices for accessing space-adjacent industries: best practices
- Finding a route to market as a non-space entity
- Regional vs. national vs. global scale-up for SMEs

Panelists:

A representative, ADS Scotland

Data Collection for Space Applications

16:30 – 17:10

How Can Upstream Support Downstream to Capitalize on the Data Revolution?

- Ensuring continuous improvements and relevance for the end-user
- Combining satellite and IoT technologies for end-to-end data services
- Integrating micro-data centres into new satellite designs

Panelists:

Dr. Hina Khan, Senior Project Manager, UK Stakeholder Engagement, Spire Global UK

17:10 – 17:30

Bridging the Gap Between Remote Sensing Data and Useable Information

Munetaka Ueno, Research Director, Japan Aerospace Exploration Agency

17:30

Plenary Conference Close and travel to cocktail venue

17:45 – 18:30 (TBC)

Panel Discussion: COP26, One Year On: How has the Space Sector Contributed Towards Net Zero Ambitions?
